

Sample Emotional Competency Report

Workshop Edition – (Chart only) The Emotional Competency Inventory (ECI) is a report on the competencies that comprise a person’s emotional intelligence. It is the result of the person’s supervisor, peers and subordinates completing a 84 question online survey. The darker purple bars are the 5 emotional intelligences and are the average of the emotional competencies (lighter purple bars) that are represented immediately before them. The ECI gives a person a picture of other’s perceptions of the key attributes that contribute to their effectiveness as a manager or leader. It identifies areas of potential coaching and personal growth
